Berke Kanber *Software Developer*

✉ berkekanber@gmail.com   📍 İzmir   ○ github.com/chefberke   🔗 berkekanber.com

Summary

As a Software Developer with hands-on experience across the full stack, I build scalable, efficient, and user-focused applications. Proficient in modern frontend frameworks like React and Next.js, as well as backend technologies such as Node.js and Express. Passionate about clean code, system architecture, and solving real-world problems with thoughtful, maintainable solutions. Continuously learning and adapting to new technologies to deliver high-quality, production-ready software.

Projects

Gitcord ⎋
Github Analysis
A centralized dashboard for developers to monitor and analyze GitHub repositories with real-time insights, tracking contributions, commits, and repository performance.

Calira ⎋
Task Management
A minimalist task management app that helps teams stay organized and productive, with simplicity and seamless collaboration in one place.

Spotiwrap ⎋
Spotify Tracks
An open-source alternative to Spotify Wrapped that analyzes users' listening habits, providing interactive insights into top tracks, artists, and genres.

Üniversite Değerlendir ⎋
University Rate
A platform for anonymous rating and reviewing of universities in Turkey, helping prospective students make informed decisions through user experiences and ratings.
